Subject: CAD cell modeling call?

Bob and Tom - I wanted to check in and see if it made sense to have a status update conf. call regarding the CAD cell modeling. Maybe everything's on hold pending the lab results from the field collection effort?? But its been a while since we discussed as a group so if you see any value in getting ERDC on the phone then please let me know. We still need the final report this fall...thus my concern.

Thanks - Dave
